Newrizons FCU has joined together with other credit unions in Washington State and around the world in a cooperative effort to better serve *you*, our member. There are now 338 locations in Washington State and 4000 locations internationally where you can access your Newrizons FCU share or checking account!

By using the CU Service Centers[®] Network, your membership and accounts remain at Newrizons FCU while you access them and conduct business through any of the convenient participating CU locations. You will be able to make deposits to your share or checking account and withdraw a limited daily amount.

Here's all you need to do:

- Call or stop by Newrizons to verify that your account has been added to the system.
- Newrizons FCU will then issue you a card containing information you will need to access your account.
- Just present the card and a current, valid picture ID to the teller.

No matter where you may be on the road, your account is now as close as the nearest participating Credit Union. Just look for the "swirl" logo (shown below). Locally that includes Our Community CU (formerly Simpson CU); Twin Star CU, Washington State Employees CU, BECU, Great NW FCU, to name but a few.
